Labour (Business day)	\$50.00	per 30 mins
Labour (Non Business Day)	\$90.00	per 30 mins

General
<p>* Services will be delivered to a single Point of Interconnection. At each point of interconnect, service providers will establish a Network to Network Interface (NNI) connection, which becomes a point where Commsco hands off Layer 2 Bitstream Access (LBAS) services to retail providers.</p> <p>* RSP's to provide backhaul from POI</p> <p>* Standard Interconnect ports are provided as access ports carrying both Internet Grade data and voice traffic</p> <p>* Access pricing provides connectivity from the local Commsco aggregated access node through to the End-user's premises.</p>
